Professional Experience

United States Navy

6/2014-Present

Lead Construction Manager | San Diego, CA | 7/2019-Present

Provide project coordination, design review, technical analysis, and quality assurance to support cradle-to-grave construction projects for the Navy and Marine Corps across the southwestern United States. Oversee and manage \$100M of construction projects while mitigating multiple schedule delays through COVID-19.

- Managed the Navy's highest priority project from beginning to completion - Mariner Skills Training Center Pacific (\$45M).
 - Complete conversion of a 121K square foot warehouse into a 2-level fully functional facility for professional education and high-tech simulator trainers that will improve training capability for engineers that serve at sea.
 - Resolved construction challenges and design conflicts to meet customer requirements and project milestones while keeping pace with an accelerated schedule.
- Hand-selected to lead the facilities and engineering division (a \$450M program) in workplace and construction Safety.
 - Well versed in the Federal Safety and Health Requirements Manual (EM-385) along with OSHA Standards.
 - Developed and implemented annual safety training plan for the division (25+ personnel), managed training requirements, led monthly safety discussions, and in charge of the near-miss review program.

Supervisor of Project Programming (Promoted) | Burlington County, NJ | 7/2018-7/2019

Requirements and Optimization Manager | 5/2017-7/2018

Supervised 30+ personnel in infrastructure asset management, construction project scope writing, and job order operations for military installation (\$9.2B assets) supporting 85+ departments.

- Led a 6-person engineering technician team in developing and programming construction repair projects.
 - Spearheaded approval and funding for entire KC-46A aircraft construction program (\$146.5M).
- Directed an asset management team, developing 1-3-5-year asset management plans to prioritize budget spending.
- Oversaw facility work order prioritization and execution, over 5,000+ service calls.

Assistant Construction Manager | Gulfport, MS | 8/2015-5/2017

Managed 30+ personnel and provided team direction to meet company goals while overseeing operations. Mentored team members and supported personnel and professional growth leading to 10+ staff members receiving a promotion.

- Prepared personnel for deployment and led them as facility maintenance supervisor for military camp in Spain.
- Excelled in contingency construction operations and limited combat engineering for military unit.
 - During field exercise, established two forward operating sites and managed project teams in the construction of security enhancement projects (timber bunker and crow's nest).
